

YOU CAN'T KEEP A GROOVY PRESIDENT DOWN!

“A blend of wit, action, and spot-on characterizations...an homage to a national treasure.”

(☆☆☆☆)

There are whispers even now that Abraham Lincoln never really died, that a voodoo spell cursed him with a terrible eternal life. It has even been claimed that he robbed banks in the 1930s with John Dillinger, only to mysteriously disappear once again into the pages of history. But the truth is even stranger than the rumors...

Watched over by a vengeful J. Edgar Hoover and held in a secret location near his old Springfield home, Lincoln re-awakens in the 1960s, and finds himself thrust into an era even more turbulent than the Depression, a time where a divisive war is once again tearing a nation apart and political intrigue and assassinations are rampant.

Escaping Hoover's clutches with a clever bit of deception, he navigates an even more treacherous and unfamiliar terrain, finding an ally in John Voci, a young San Francisco folk-singer. Together they journey across a counter-cultural landscape, meeting those who believe a great man has returned, and striving to remain free from those who want to bury him once and for all.

Will Lincoln inspire the younger generation and save his country from its final reckoning, or will he turn on, tune in, and drop out?
